Event Summary

The Health Literacy Ambassador recognition event helps HOSA members enhance their health literacy skills and promotes the use of credible health information. This event supports the Surgeon General's priorities by addressing the threat of health misinformation, which can create confusion, erode trust, harm individual health, and weaken public health efforts. By teaching members how to evaluate the accuracy of health information and by introducing them to MedlinePlus from the National Library of Medicine as a reliable source, the event equips them to combat misinformation effectively. Participation will benefit all HOSA members to ensure how to find and use credible health information.
